WINDOWS • DOORS • LIVING SPACES • ROOFS

LIVING SPACES

Moving house can be a stressful experience, but there's very little stress involved in adding a living space to your home.

MPN has bags of experience in designing and fitting living spaces as we've all executed hundreds of them and therefore know exactly what a great space should encompass. Now comes the decision of picking the right living space for your home, whether it be a conservatory, orangery, or home extension.

CONSERVATORIES

You're not restricted to how you use a conservatory as it can serve any purpose. Assign it as a family room or workout in the space, a conservatory can be whatever you need it to be.

Technically speaking, the true definition of a conservatory incorporates internal separating doors between your home and your new living space, and over 75% of glass in the roof. But 'labels' aside, your conservatory can be whatever you want it to be. We have a huge range of options to tailor your room, including swapping glass for a solid tiled roof or even a hybrid of tiled.

ORANGERIES

The original concept of the 'orangery' was born in Italy and was seen as a true mark of wealth. Today, the same elegance shines through - our collection of stunning orangeries give you a world of opportunity to make your mark.

Match brick pillars to your home for a seamless look or add insulated columns for a modern finish. You'll still be able to incorporate plenty of glass so you don't lose that outside view, but with a little extra privacy and warmth for a more luxurious feel.

HOME EXTENSIONS

If it's more space that you need, a home extension from MPN will see to that. Home extensions have the ability to reshape the way we live and work, with an option to suit your every need.

Whether you're in need of space for a home office, a bigger kitchen to cook up a feast or a dining room perfect for entertaining friends and family, MPN can create a bespoke extension just for you. These extensions not only enhance functional aspects but also enrich the overall quality of home life.

REPLACEMENT ROOFS

TRANSFORM YOUR OLD CONSERVATORY INTO A REAL EXTENSION

Is your old conservatory too hot in summer and too cold in winter? With a new lightweight solid tiled roof or modern glass roof and frames, you can transform your outdated conservatory into a year-round useable room which will pass Building Regulations – changing its definition to a true extension, which will in turn add value to your home.

Select A TILE STYLE

Choose from our array of tile colours and finishes to complement your home.

TILED ROOF

When it comes to extending, it's so important to create a look that complements your existing property. That's why we have a fantastic range of modern slate textured and shingle tiles in a variety of colours so you can choose the look that's right for you.

EXTRA STRENGTH
Manufactured using the latest solid roof tile system, for extra durability.

COMPLEMENT YOUR HOME
Create a setting that you can spend time in every day, no matter what the weather.

ENERGY EFFICIENT
Insulated plywood and a rigid insulation board to prevent heat loss and significantly increase thermal efficiency.

GLASS ROOF

A glass roof is the obvious choice if you want to fully appreciate a stunning view of the sky from your new living space. A glass roof will also minimise the noise impact of rain and hail versus an old traditional polycarbonate-style roof. We provide a wide choice of tinted performance glass options for your glass roof, lantern, skylight or glazed rooflight.

EASY CLEAN
Self-cleaning glass utilises the latest weather proofing technology, it can fight off the elements with ease.

HIGH PERFORMANCE GLASS
All options feature thermal control, light transmission, and heat reflection properties.

SOLID ROOF

Ready to make a statement? A solid roof extension will certainly do that, especially if it also has skylights or lanterns styled into the design. It will leave it feeling bigger than you ever can imagine. Your new roof will be unlike any other as it will be customised for your conservatory, with MPN shaping it to fit the design.

ULTIMATE DESIGN FLEXIBILITY
Create virtually any shape or sized glazed panel and insert where you want them.

THERMAL CONTROL
A choice of solar control glazing options is available to keep your room comfortably warm and energy efficient.

WINDOW COLLECTIONS

With so much choice it can be challenging to know where to begin!

BAY & BOW

A window style that is bursting with character and personality.

Your home will have a modified appearance when it has a bay or bow window assimilated into its existing makeup. It will add light, which in turn will make the inside of the house feel roomier. This light will charge its way indoors and leave the atmosphere feeling brighter than it possibly ever has, without you having to go to extremes to accomplish the feat.

KEY FEATURES

A+

SUPER ENERGY EFFICIENT

Our UPVC range achieves an **A+ energy rating as standard**, out-performing the standard requirement.

UNIQUELY YOURS

Our team will work with you to **create the perfect bespoke design** that will add to the character of your home.

COLOURS & FINISHES

Take your pick from our eye-catching collections of **colours and finishes for both the inner and outer frames.**

ENHANCED SECURITY

All the very latest secure mechanisms are incorporated into the system, including a **multi-point lock.**

TILT & TURN

Tilt and turn windows are designed to make your life easier – allowing both gradual and secure ventilation, as well as effortless indoor cleaning.

Twist the handle once, and the window tilts slightly inwards for a breath of fresh air. Twist the handle again and it turns inwards on side hinges, giving you access to both the internal and external pane of the double glazing and making cleaning simple.

EXTREME[®]
UPVC Windows

FULLY REVERSIBLE

Easy to clean and simple to operate, our Extreme fully reversible window is a practical and stylish option for your home.

The pivot mechanism enables your window to rotate a full 180 degrees, allowing you to clean your windows from the inside. It also incorporates an advanced locking mechanism and automatic safety catches as standard.

EXTREME[®]
UPVC Windows

SLIDING SASH

Modern meets traditional with our high-performance sliding sash window, allowing you to maintain that authentic charm that characterises your home.

Traditionally made from timber, our UPVC sliding sash window offers the same classic appeal and styling, combined with the low maintenance and thermally efficient benefits demanded in today's market.

FLUSH WINDOWS

A true declaration of style. Stand out from the crowd with beautifully designed flush casement windows in UPVC or Aluminium.

This beautiful new design gives the exterior a flush appearance, so it sits flush with the face of the window. Quality craftsmanship never goes out of fashion - Flush windows are a perfect blend of style and performance.

AN AUTHENTIC LOOK

The flush fitting of our Envisage and Eclipse frames are ideal for those looking for a clean and minimal design.

EXCEPTIONAL PERFORMANCE

Our frames all come with energy-efficient glazing and super secure locking mechanisms as standard.

ECLIPSE ALUMINIUM

Low density, slimline frames are perfect for contemporary properties. Maximise glazing for the perfect view and fill every room with ample natural light, without compromising on performance.

Our aluminium windows may have super-thin frames, but don't let that fool you. Their thermal aluminium structure is highly durable and super energy efficient.

BESPOKE STYLING

Our aluminium windows can be made in any RAL colour to blend seamlessly with any property.

SUPER SECURE HARDWARE

Including an unbeatable multi-point locking system and hinge to ensure strength and reliability.

FEATURE DOORS

WHEN OUTDOOR MEETS INDOOR

Re-establish stylishness at home with a new front door from MPN. Invest in a design that will give it back its appeal and renew your love for it. Everyone will agree that doors are among the more important aspects of a home's utility, that is why we offer a range of replacement doors which are the epitome of the quality that we stand for.

BI-FOLD DOORS

The ultimate style choice, bi-folding doors open up an entire wall to your garden or patio, giving a wonderful feeling of space and an unobstructed view for your new living space.

Ideal for large openings, in seconds you can remove the divide between indoors and outdoors. Add a contemporary atmosphere to your extension while providing the highest level of security, excellent weather protection and effortless operation.

SLIDING PATIO DOORS

It's not how much space you have, but how you use it that counts. The sliding operation of patio doors allows you to position furniture and other objects within close proximity of the door.

Your patio door will glide across stainless steel runners for effortless operation. The big expanse of glass actually creates the feeling of more space and added light. Thermally efficient and reassuringly secure, our sliding patio doors can be tailored to the exact requirements of your new living space.

KEY FEATURES

SUPER ENERGY EFFICIENT

Our UPVC range achieves an **A+ energy rating as standard**, out-performing the standard requirement.

COLOURS & FINISHES

Take your pick from our eye-catching collections of **colours and finishes for both the inner and outer frames**.

UNIQUELY YOURS

Our team will work with you to **create the perfect bespoke design** that will add to the character of your home.

ENHANCED SECURITY

All the very latest secure mechanisms are incorporated into the system, including a **multi-point lock**.

FRENCH DOORS

The practical option for families or those who are regularly in and out of the garden, French doors open up quickly and easily, creating a beautiful opening for your new living space. Open a single door for quick and easy access, or both doors out on summer days or when you're entertaining to let the fresh air flow through.

Not solely limited to external use – you can also choose internal French doors to join your new conservatory or extension to your house, creating a little haven of tranquillity when the doors are closed.

KEY FEATURES

SUPER ENERGY EFFICIENT

Our UPVC range achieves an **A+ energy rating as standard**, out-performing the standard requirement.

UNIQUELY YOURS

Our team will work with you to **create the perfect bespoke design** that will add to the character of your home.

COLOURS & FINISHES

Take your pick from our eye-catching collections of **colours and finishes for both the inner and outer frames**.

ENHANCED SECURITY

All the very latest secure mechanisms are incorporated into the system, including a **multi-point lock**.

TRIPLE TRACK SLIDING PATIO DOORS

The triple track patio door is an impressively slender feature door. With minimal frame and maximum glass, your view won't be obstructed, and you won't lose space when the door is fully open as there are no folding sashes in the design.

LESS FRAME, MORE GLASS

The larger glazing area allows more natural light to enter your home, making it feel brighter and more spacious.

HUGE OPEN SPACE

When fully opened, you can invite the outdoors into your home for an invaluable added dimension. An immediate, extra extension to your home!

FRONT & BACK DOORS

Every kind of replacement door you could want is available at MPN! Whatever door you choose, we make no compromises on security, style or efficiency.

EXTREME SOLID CORE DOORS

For a door with intense durability, look no further than our Solid Core Door range.

EXTREME STRENGTH

There is no match in terms of strength, built from 16 layers of laminated timber within a 48mm core.

EXTREME LOCKING

Our 'Auto-Engage' multi point locking system will automatically engage upon closing, for super-strong compression and security.

EXTREME STYLE

Choose from an array of hardware and glazing options, available in a huge range of colours and styles to complement your home.

FORTÉ COMPOSITE DOORS

For toughness, a composite door is pretty much unbeatable, much tougher than a traditional timber door, although possessing timber like character.

20 YEAR GUARANTEE

Robust and strong, your door comes with a 20 year guarantee for added peace of mind and is super-secure, featuring our multi-point locking system.

THE HIGHEST QUALITY

A strong foam core is coupled with a laminated subframe to provide even more strength and rigidity.

GET CREATIVE!

Express yourself with our unique hardware and glazing options.

UPVC DOORS

For a door with intense durability, look no further than our Solid Core Door range - taking home security to new levels.

UPVC FEATURES

Our UPVC front and back doors feature fully heat welded mitred corners and mid rails.

MULTI CHAMBER PROFILE

An exclusive multi chamber UPVC profile offers greater heat saving and better insulation standards.

BESPOKE CONFIGURATION

Like-for-like or brand new - you'll find enough styles and hardware options to make it yours.

STABLE DOORS

It's the practicality of a stable door that attracts customers to this traditional style, who want a door that keeps children and pets safe.

AUTHENTIC AESTHETICS

Stable doors are full of character, giving your home a visually engaging entrance.

THERMAL EFFICIENCY

Heat loss will be minimised and any draught that you felt in your home will disappear for good.

MULTI POINT LOCKING

Our 'Auto-Engage' multi point locking system will automatically engage upon closing, for super-strong compression and security.

ALUMINIUM DOORS

From an aesthetics perspective you really couldn't wish for a more visually appealing door.

MODULAR PANEL SYSTEM

Our unique modular panel system allows us to create a design that is truly bespoke to your requirements.

THE PERFECT MATCH

The beauty of our aluminium doors is they can be made in any RAL colour to blend in with any property.

SECURE DOOR BARREL

Our 3-star rated cylinder offers the highest level of protection - featuring snap-secure technology with lockdown mode to prevent break-ins.

THE MPN COLLECTION
