Fully Reversible Window System

For the best profile... anywhere
The Fully Reversible Window System from VEKA gives specifiers, fabricators and homeowners the combination of one of the most popular and versatile window styles with the highly acclaimed Matrix 70mm suite from VEKA.

With all the superb good looks and technical excellence of everything that bears the VEKA name, the VEKA Fully Reversible is setting a new standard for the industry.
The VEKA Fully Reversible

The choice of specifiers:
Fully Reversible versatility with severe weather rating performance and inside cleaning facility, to adhere to Scotland and Northern Ireland Building Regulations.

...plus the reputation that makes VEKA and the Matrix systems the No1 choice of social and commercial specifiers all over Britain and Ireland.

The choice of fabricators:
Advanced design and compatibility with Matrix 70 enables quick and efficient frame fabrication.

The choice of homeowners:
A popular choice everywhere - even in ground-floor applications ...and still Scotland’s favourite retrofit window style.

Matrix 70mm compatible:
The VEKA Fully Reversible Window System is fully integrated within the existing Matrix 70mm suite, offering:

- Same frame & mullion size, bringing potential cost benefits.
- Same bead options.
- Existing cill range.

It also enables the use of Matrix 70mm false transoms and mullions within the sash.
- Compatible with Peder Nielsen Uni-system hinge.
- Choice of several locking mechanisms.
- Kitemark accreditations BS7412 and BS7950.
- Designed to severe weather rating to withstand in excess of 2,400 Pascals (equivalent to 140mph wind speed).
- Offset sash gives concealed interior seal & exterior bevel feature.
- Maximum sash height 1560mm
- Maximum square sash size 1400mm x 1400mm

Available in White, Golden Oak on caramel, Rosewood on brown, Grey on white – available foiled on one side or both.
...a world-beating window system
